

AVKOPACK[®] 1513**CHARACTERISTICS**

Gland packing braided by glass yarn, additionally made with PTFE, graphite and silicon oil.

APPLICATION

AVKOPACK 523 is used for the sealing of pumps, mixers, valves, and sliders. It may be used in conditions of steam, neutral solutions, rarefied acids and alkali, air, inert gases, mineral oils and etc.

The packing is widely used in the power supplying industry, the chemical, cellulose industries and etc.

ADVANTAGES

AVKOPACK 523 has a good flexibility, elasticity and may be installed very easy.

TECHNICAL PARAMETERS

<i>Working temperature:</i>	<i>-50 °C / +280 °C</i>
<i>Working pressure:</i>	
<i>- for rotary - pumps:</i>	<i>20 bar</i>
<i>- for piston - pumps</i>	<i>40 bar</i>
<i>- for armature:</i>	<i>60 bar</i>
<i>pH:</i>	<i>2 - 12</i>
<i>V</i>	<i>15 m/s</i>

HEALTH HAZARD INFORMATION: *No harmful effects ascertained.*
